

**Exeter Street Drainage Basin
Newmarket, New Hampshire**

DRAINAGE SURVEY QUESTIONNAIRE

The Town of Newmarket requests your help to gain a complete understanding of the circumstances leading to the roadway, yard and basement flooding along NH Route 108 (Exeter Street) and properties downstream of NH Route 108. Your participation in this survey will help the Town and their consultants to identify the magnitude of problems at hand, define parameters for a drainage study (to be completed by the Town) and may also be used for permitting and funding applications for a long-term solution to the problems that exist. Please take a few moments to help by providing us with the information requested. Your help is needed to reduce the number of unknowns pertinent to the design and construction of flood mitigation. Additional comments and concerns can be included on the back of this form. Thank you for your assistance.

<hr style="border: none; border-top: 1px solid black; margin-bottom: 5px;"/> <div>(Name)</div>	<hr style="border: none; border-top: 1px solid black; margin-bottom: 5px;"/> <div>(Street Address)</div>
